

# Klance Unlimited

2021

PACIFIC

## SUMMARY

Klance Unlimited, a full service event and production solutions company, located in Pacific, MO was interested in reducing their carbon footprint and lowering their monthly energy costs.

The team at Klance first decided to retrofit their existing lighting over to high efficiency LED fixtures and bulbs, then decided to add a solar generation system as well. They were very excited to learn that C-PACE financing was available to them. The ability to lengthen the term out to 20 years along with the additional tax benefits was of particular interest to them.
